MAY/JUNE CLAIMS FOR REIMBURSEMENT

If you are **not** going to combine your May and June claims, please be sure that you have notified us that you want to file a June claim. This can be determined by checking your copy of the 'Schedule A' form that was submitted for the current school year. If on Page 1, # 5, you circled the month of June, a June claim form will be available on MEIS. If you did not circle that month and find that you need to file a June claim, notify our office as soon as possible. That month can then be made available on MEIS.

Otherwise, the May/June claim submission process remains the same as in prior years. If you are going to be in operation for **10 days or less in June**, you do not need to transmit a June claim.

Combine June's data with your May claim data and **submit both when filing the MAY claim**.

If you will be serving meals for **more than 10 days in June**, you **must** transmit a separate claim for that month. Please transmit your June claim data (or May with June included) as soon as possible after your last serving day for the school year.

This also applies to the August and September claims. If you have 10 days or less to claim for August, combine it with your September claim. If you require an August claim be sure that you have requested this on your Schedule A. If you have not, please notify us. Any questions can be

directed to Pam Miller at (517) 373-1074.

Extended School Year Programs

If your school district is going to be operating a summer program and plans to participate in the NSLP, please notify the School Meals Program office immediately. The following information is needed **in writing** as soon as possible:

- C Agreement number and name of school district**
- C Type of summer program operated**
- C Meals types served**
- C Dates of operation of summer program**
- C Number of students enrolled**

In addition, let us know if you intend to order commodities for those months so that the warehouses can be notified. The order form that you would receive from TLC for June and July is combined - delivery is made for both months in June. No delivery is made in July. This order form has to be returned to the warehouse as early as possible to assure delivery in June. Otherwise, orders will have to be picked up at the warehouse. Northern Warehousing also has combined deliveries for the summer months and requires prior notification from our office. Send above requested information to:

Michigan Department of Education
Office of School Support Services/Fiscal Reporting,
P.O. Box 30008, Lansing, MI 48909

Commodity Corner

COMMERCIAL LABELS

Expanding the use of commercial labels for USDA commodities is one of the areas in USDA's commodity program improvement plan. Allowing vendors to use commercial labels rather than requiring USDA labels has been a business practice encouraged by both industry and business practice groups for several years. Use of commercial labels for USDA products was piloted in the household program with success and has been used on some Group B commodities for schools.

Successful implementation of this improvement requires a different way of record keeping by school districts. Visual identification of commodity foods will not be apparent and will make separating purchased foods from commodity foods more difficult. Therefore, USDA had been piloting a different way for schools to inventory commodities in the states of Maryland and North Carolina since January 2001.

Regulatory changes and/or waivers must be made to accommodate new inventory procedures. Therefore, business is "as usual" for all schools in Michigan:

- , Maintain ***monthly inventory record*** which shall reflect a balance of all commodities.
- , Store commodities in a secured area separate from food used for other programs or business
- , Order only enough commodity food for a 30 day period and not accumulate excess inventory

, The Michigan Department of Education will notify schools when USDA and OMB issue changes related to inventory requirements for USDA.
